Brass Sleeve Anchor
Brass Pool Anchor

Embossed surface with two strips and four segments:
- Corrosion resistant and hence can be used in all environments
- Embossed surface provides extra grip
Inside conical shape ensures equal expansion of segments while screwing

- Very useful in building material viz. concrete, brick, natural stone and also in wood
- Temperature resistant
- Simple and easy to apply

Installation:

- Drill a hole as per the external diameter of brass anchors
- Hammer the brass anchors into the hole
- Take a required bolt for screwing
- Fix it with suitable spanner

Application:

- Used for all light and medium duty fixing in Building Industry.
  - For e.g. : Electrical, Sanitary Installation work, Air - conditioning, Mounting of suspended ceilings, Heating systems etc.

Size:

- From 5/32, 4 mm to 16 mm 1/4" to 5/8" OR
- Sizes available as per your drawing / sample

Finish for brass anchors:

- Natural Brass
